THE SMART SPRING COSTUME

After months of fur coats milady welcomes the spring trotteur, or one-piece frock, and the becoming fur neck piece that constitute a really smart spring outfit. This fur is of fox.

AMONG NEW GINGHAM FROCKS

Frocks for Spring and Summer Are Daintily Trimmed With Wool Embroidery.

Some of the best dressmakers are making gingham frocks for spring and summer trimmed with wool embroidery. Especially attractive are those with hems run with wool. One attractive model made of brown-and-white checks has a straight gathered skirt with a series of three tucks run in brown wool stitches about a half inch in length.

Then there are charming little gingham dresses made with wool embroidered flowers or fruit. However, there is always real wisdom in making gingham frocks so that they may be easily washed and ironed and this woolen embroidery does not recommend itself on this score. The wool-run tucks are possible providing you take the tuck originally in machine stitching, simply using the wool-running for ornamentation.

One of the greatest advantages in making gingham dresses at home is that you may have them shrunk beforehand. It is also a good plan to have the color set before the material is cut, and this can be done at the same time that you are shrinking the goods.

The substances usually used for setting colors are salt, vinegar, alum or sugar of lead. The first mentioned is a poison, so it is better not to use it. To set the color in any material, dissolve in a gallon of warm water one-half cupful of strong vinegar, two cupfuls of salt or one tablespoonful of alum. Mix thoroughly and let the material soak in this overnight. Dry before it is admitted to clear water.

In selecting the material for gingham frocks it is always worth while to pay the price required to get the best quality. Certain standard makes of high-priced gingham are a good choice, as you may depend on the quality of these.

AMERICA MAKES THE STYLES

Dictatorship of Women's Apparel Said to Include Every Country in the World.

American dictatorship of women's styles has grown until it includes every country in the world where women study the fashion books, according to the fashionable dressmakers in London and Paris. It is the American women who say what they want, and the world wears it—whether it becomes the world or not.

According to Elsie Phelps, one of London's leading fashionable dressmakers, this American predominance of styles began shortly before the war, but has shown decided development in the last few years. It was felt first in Paris, and what Paris found good London also adopted—and liked.

Those simple and costly little silk frocks that are now such a feature in the Parisian shops are not Parisian at all, said Miss Phelps. They are entirely American in style and cut. Women who came to Paris liked them and took home such quantities of them that the style is known wherever women are.

Paris first began using American styles as a matter of business. American women have always been the best customers of the Paris shops and they have had the money to buy what they wanted. Most of the American women who came abroad liked to have Paris trademarks on their clothes, but they insisted on American styles. The exclusive shops wisely began giving them what they demanded, and American clothing began coming out of Paris.

Nominally, Paris is still the style center of Europe. American influence is not generally acknowledged. Fashion experts abroad dislike to admit the full scope of power which the Yankees have over the clothes output. But they admit to you in secret that European women are dressing according to New York, instead of Paris.

"IS WONDERFUL" SAYS DISPATCHER

SINCE TAKING TANLAC HE EATS, SLEEPS AND FEELS BETTER THAN IN TWO YEARS.

"I eat better, sleep better and feel better than I have in two years and Tanlac gets the credit for building me up," said R. H. Budd, well known train dispatcher for the M. K. & T. Railroad, residing at 524 1/2 West Okmulgee Street, Muskogee, Okla., recently.

"About two years ago I commenced going down hill, and then a year ago I was in such a low state of health that I had an operation. After this it seemed that I just couldn't get my normal weight and strength back. What little I ate bloated me all up with gas, keeping me uncomfortable for hours and did me very little, if any, good. The bloating caused my heart to flutter frightfully, and my nerves were shattered so I couldn't get the sleep I needed. I felt weak, sluggish and tired all the time.

But when I started on Tanlac I began to straighten right up. I'm not troubled with indigestion any more, have gained several pounds in weight and am built up in strength and vitality until I hardly feel like the same man. Tanlac has done fine work for me and I'm glad to tell others about it. My friends who noticed how pale and weak I looked before taking Tanlac, can look at me now and see the way it has put color in my face and built me up."

The man who waits for building material demand to slacken, for prices to recede, will lose much in profits and possibly pay even more in the end.

There is profit in building. Otherwise people would not build. With all prices high the profit remains. Why wait?

It is our earnest advise that you build now—that you come to us for your estimates.

You just know from its stimulating, healthy odor that it will do you good! Sloan's Liniment is sold by all druggists—35c, 70c, \$1.40.

Sloan's Liniment (Pain's enemy)

Postoffice Department numbering 1,200 in the eleventh district, comprising Texas, Oklahoma, Arkansas and New Mexico, will bear side arms while on duty henceforth, it was announced here today by S. M. Gaines, superintendent of the United States railway mail service headquarters here. Mr. Gaines had received orders directly from the office of Postmaster General Hays.

The order was promulgated following the robbery perpetrated last week at the Dearborne postoffice station in Chicago, and coming on the heels of numerous such robberies. The department has also posted a reward for the arrest and conviction of a robber of the mails. The practice of arming employees of the service was discontinued more than thirty years ago, Mr. Gaines said.
